Wheat Sold at

\$2.44 per Bushel

OTTAWA, Nov. 10.—Hon. A. R. McLean, who was acting minister of trade and commerce when most of the sales of Canadian wheat were made by the Canadian wheat board to England, stated today that No. 1 hard was sold at \$2.44 at the seaboard during the months of August and September.

It is understood that any sales since then have been about on the same basis.

Five Business Places in Olds Destroyed

Olds, Nov. 9.—Five places of business were entirely wiped out here by a fire which occurred on Sunday, and only the absence of wind kept the fire from jumping across the street and destroying the big McKencher Bros. business block.

The blaze started in the old Alberta hotel, occupied by Mahoney's garage, where three or four cars were burned. The buildings burned include R. B. Campbell's real estate office, the Alberta hotel, Sweet Home Cafe, a laundry and the G. and S. restaurant. The total loss will probably reach \$20,000 or \$30,000, partially covered by insurance.

Solicitor Ford

Holds Investigation

On Monday last week City Solicitor Ford of Calgary, on behalf of the provincial government, investigated the affairs of the Didsbury emergency flu hospital. Seven of the eight municipalities concerned were represented and a spirit of harmony prevailed. On receipt of Mr. Ford's decision we will publish same in the Pioneer. R. B. Martin, Secy.-Treas.

Coal Miners in U.S.

Call Off Strike

INDIANAPOLIS, Nov. 11.—United States District Judge A. B. Anderson, at 10 o'clock this morning approved the order of the officials of the United Mine Workers of America, rescinding the strike order of October 15. Attorneys for the miners promised to try to have it in the mails by 6 o'clock this evening. This action was taken following a session of the general committee of the miners, which decided early today to comply with the mandate of the court, issued last Saturday.

Mrs. J. H. Hoger and daughter Nelda were visitors at Calgary on Saturday.

A Premium for Pure Bred Rams

Any sheep raiser who purchases a pure bred registered ram of any recognized breed recorded in the Canadian National Live Stock Record or eligible for such registration, for use in his own flock, and who has not previously used a pure bred registered ram, shall be entitled to the annual premium of \$5 for two consecutive years, provided he will comply with the regulations specified in Pamphlet No. 19, "Information Concerning the Policy Regarding Pure Bred Rams," issued by the Live Stock Branch, Ottawa. It has been decided that the best way to prove the value of pure bred rams is to help every sheep raiser, who has not previously used a pure bred ram, to use his own flock for demonstrating the value of this practice. Therefore the Dominion Department of Agriculture will grant to bona fide applicants who comply with the above mentioned regulations a sum of \$5 annually for two years, for each pure bred registered ram. No individual sheep raiser shall be permitted to receive premiums for more than four rams. Regular forms to be used in making application under this policy are to be found in the back of pamphlet No. 19.

Bad Breath? Don't Be Offensive Removes the Cause

Follow This Advice and Your
Breath Will Soon Be Sweet
and Pure

The bad part of Bad Breath is the fact that nearly every case shows considerable trouble from indigestion, belching gas, bloating, piles or some form of stomach misery. Oftener than not a pimply face, a sluggish, constipated condition is the true cause of many a man's failure in life.

By aiding digestion and building up the weak muscles of the stomach and bowels, DR. HAMILTON'S PILLS completely overcome constipation and all forms of stomach illness.

"I was terribly run down with stomach trouble that arose through neglected constipation," writes Mrs. P. D. Quigley, from Washburn, P.O. "I simply couldn't half digest my food. I had dreadful headaches, piles and yellow muddy skin. The effect of DR. HAMILTON'S PILLS was phenomenal. I have gained in weight, have a clear skin, no more headaches, I eat well, sleep well and enjoy my meals."

There is no need to be in failing health when cure is so sure, so easy, by taking Dr. Hamilton's Pills of Mandrake and Butternut. 25c per box, at all dealers. REFUSE A SUBSTITUTE.

THE COW PUNCHER — BY — ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By

Arrangement.

Dave was not long in discovering that his engagement as coachman was a device born of Mr. Duncan's kindness, to enable him to accept instruction without feeling under obligation for it. When he made this discovery, he smiled quietly to himself and pretended not to have made it. Two things were apparent after their first drive; that nothing was further from the minds of Mr. Duncan's boys than anything which called for so much exertion as a run-away, and that, even had they been so disposed, Edith was entirely competent to manage them. The girl had not lived in the foothill town since childhood without becoming something of a horse-woman. But Dave pretended not to know that he was a supernumerary. To have acted otherwise would have seemed ungrateful to Mr. Duncan. And presently the drives began to have a strange attraction of themselves.

When they drove in the two-seated buggy on Sunday afternoons the party usually comprised Mrs. Duncan and Edith young Forsyth and Dave. Mr. Duncan was interested in certain Sunday afternoon meetings. It was Mrs. Duncan's custom to sit in the rear seat, for its better riding qualities, and it had a knack of falling about that Edith would ride in the front seat with the driver. She caused Forsyth to ride with her mother, ostensibly as a courtesy to that young gentleman—a courtesy which, it may be conjectured, was not fully appreciated. At first he accepted it with the good nature of one who feels his position secure, but gradually that good nature gave way to a certain testiness of spirit which he could not entirely conceal. It became evident that he would have preferred other ways of spending the Sunday afternoons. The parks for instance, or quiet walks through the cotton-woods by the river.

The crisis was precipitated one fine Sunday in September, in the first year of Dave's newspaper experience.

Dave called early, and found Edith in a riding habit.

"Mother is 'indisposed,' as they say in the society page," she explained. "In other words, she doesn't wish to be bothered. So I thought we would ride today."

"But there are only two horses," said Dave.

"Well?" queried the girl, and there was a note in her voice that sounded strange to him. Then, after a pause in which the color slowly rose to her cheeks, "There are only two of us."

"But Mr. Forsyth?"

"He is not here. He may not come. Will you saddle the horses and let us get away?"

It was evident to Dave that, for some reason, Edith wished to evade Forsyth this afternoon. A lover's quarrel, no doubt. That she had a preference for him, and was revealing it with the utmost frankness, never occurred to his sturdy, honest mind. One of the delights of his companionship with Edith had been that it was a real companionship. None of the limitations occasioned by any sex consciousness had narrowed the sphere of the frank friendship he felt for her. She was to him almost as another man, yet in no sense masculine. It seemed rather that her femininity was of such purity that, like the atmosphere he breathed, it surrounded him, flooded him without exciting consciousness of its existence. Save for a certain tender delicacy which her womanhood inspired, he came and went with her as he might have done with a man chum of his own age. And when she preferred to ride without Forsyth it did not occur to Edith that she preferred to ride with him.

They were soon in the country, and Edith, leading, swung from the road to a bridle trail that followed the winding of the river. As her graceful figure drifted on ahead it seemed more than ever reminiscent of Reenie Hardy. What rides they had had on those foothill trails! What dippings into the great canyons! What adventures into the spruce forests! And how long ago it all seemed. That was before he started on the paper; before he had been in the grocery business, or in the coal business; back in the long, long past on the ranch in the days before his father died. Life—how it goes! And had it brought to her as many changes as to him? And had it, perhaps, brought to her one change it had not brought to him—a change in the anchor about which her heart's affection clung? This girl, riding ahead, suggestive in every curve and pose of Reenie Hardy. . . . His eyes were burning with loneliness.

He knew he was dull that day, and Edith was particularly charming and vivacious. She coaxed him into conversation a dozen times, but he answered absent-mindedly. At length she leapt from her horse and seated herself, facing the river, on a fallen log. Without looking back she indicated with her hand the space beside her, and Dave followed and sat down. For a time they watched the swift water in silence; blue-green where the current ran deeply; tinged with brown glow in the shallows from the gravel underneath.

"You aren't talking today," she said at length. "You don't quite do yourself justice. What's wrong?"

"Oh, nothing," he answered with a laugh, pulling himself together. "This September weather always gets me. I guess I have a streak of Indian; it comes of being brought up on the ranges. And in September, after the first frosts have touched the foliage—" He paused, as though it was not necessary to say more.

"Yes, I know," she said quietly. Then, with a queer little note of confidence, "Don't apologize for it, Dave."

"Apologize?" and his form straightened. "Certainly not. . . . One doesn't apologize for nature, does he? . . . But it comes back in September." He smiled, and she thought the subconscious in him was calling up the smell of fire in dry grass, or perhaps even the rumble of buffalo over the hills. And he knew he smiled because he had so completely misled her.

Presently she took out a pocket volume. "Will you read?" she said. Strangely enough he opened it at the lines:

"Oh, you will never hide your soul from me;

I've seen the jewels flash, and know 'tis there
Muffle it as you will."

. . . . It was dusk when they started homeward.

Forsyth was waiting for her. Dave scented stormy weather and excused himself early.

"What does this mean?" demanded Forsyth, angrily, as soon as Dave had gone. "Do you think I'll take second place to that—that coal heaver?"

She straightened, and her bright eyes were charged with a blaze which would have astonished Dave, who had known her only in her milder moods. But she tried to speak without passion.

"That is not to his discredit," she said.

"Straight from the corals into good society," Forsyth sneered.

Then she made no pretense of composure. "If you have nothing more to urge against Mr. Elden, perhaps you will go."

Forsyth took his hat. At the door he paused and turned, but she was already ostensibly interested in a magazine. He went out into the night.

The week was a busy one with Dave, and he had no opportunity to visit the Duncans. Friday Edith called him on the telephone. She asked an inconsequential question about something which had appeared in the paper, and from that the talk drifted on until it turned on the point of their expedition of the previous Sunday. Dave never could account quite clearly how it happened, but when he hung up the receiver he knew he had asked her to ride with him again on Sunday, and she had accepted. He had ridden with her before, of course, but he had never asked her before. He had been a sort of honored employee, whose business it was to comply with her wishes. But this time she would ride at his request. He felt that a subtle change had come over their relationship.

He was at the Duncan house earlier than usual Sunday afternoon, but not too early for Edith. She was dressed for the occasion; she seemed more fetching than he had ever seen her. There was the blush of health—or was it altogether the blush of health?—on her cheeks, and a light in her eyes such as he had seen more than once on those last rides with Reenie Hardy. And across her saddle she threw a brown sweater.

She led the way over the path followed the Sunday before until again they sat by the rushing water. Dave had again been filled with a sense of Reenie Hardy, and his conversation was disjointed and uninteresting. She tried unsuccessfully to draw him out with questions about himself; then took the more astute tack of speaking of her own past life. It had begun in an eastern city, ever so many years ago.

Chivalry could not allow that to pass. "Oh, not so very many," said Dave.

"How many?" she teased. "Guess." He looked judicially on her bright face. It was a good face to look upon. Perhaps his eyes said as much.

"Nineteen," he hazarded.

"Oh, more than that."

"Twenty-one?"

"Oh, less than that." And their first confidence was established.

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Pinkham's Vegetable Compound has done for me."—NELLIE B. BRITTINGHAM, 609 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

Scotland Going Dry

Minister Says Country Will Vote Prohibition in Spring

"Scotland is going dry next year," according to Rev. Dr. J. J. Jowett, who sailed on the Adriatic for England recently, after preaching a month in his former church at the Fifth Avenue Presbyterian church, New York.

"It will surprise many," he said, "that I make the assertion that Scotland next year will vote to go dry, for I do not believe it is realized here how far the temperance movement has progressed in the British Isles. A country which has prohibition will become eighty per cent. more efficient than one which has not, and the drink-ridden countries across the sea will have to follow in the footsteps of the United States or fall behind in the economic race."

"Twenty," thought Dave to himself. "Reenie must be about twenty now."

"And I was five when—when Jack died," she went on. "Jack was my brother, you know. He was seven, and a great boy for his daddy. Most boys run to their mother with their hurts, but Jack was different. When father was at the office Jack would save up his little hurts until evening."

. . . . Well, we were playing, and I stood on the car tracks, signalling the motorman, to make him ring his bell. On came the car, with the bell clanging, and the man in blue looking very cross. Jack must have thought I was waiting too long, for he suddenly rushed on the track to pull me off." She stopped, and sat looking at the rushing water.

No Equinoctial Storms

Scientists oppose the widely held belief that storms always occur at the time of the autumn equinox. The equinox may or may not be coincident with stormy weather, which can reasonably be expected to occur in some parts of the world at any time. The theory that it always does is relegated to the same class as those notions that rain on Easter presages rain on seven succeeding Sundays, a stormy St. Swithin's Day means 40 days of bad weather, and that lumber made from a tree felled in the dark of the moon will become worm-eaten.

GEE, BUT IT'S GOOD FOR A BAD COLD

Nothing Can Touch Catarrh—
zone in Curing Quickly

You may dislike taking medicine—but coughs are best cured without medicine. The modern treatment is "Catarrhzone"—it isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, nothing so sure, so pleasant as Catarrhzone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhzone. Large size which lasts two months, price \$1.00; small size 50c; sample size 25c, at all dealers.

Largest Statue in World

It is reported from Japan, that there is being carved there the largest statue in the world. It is a recumbent effigy of Nichiren, a Japanese patron saint, cut from a natural granite rock on a hillside in the Island of Ushigakubi, or the "Cow's Head," in the inland sea of Seto. This stone image, it appears, will be 240 feet long, 60 feet longer than the sleeping Buddha at Segu, Burma, and considerably larger than the Sphinx in Egypt.

Keep Fit For Success In Life

BY DR. A. B. BARCOCK.

You can take your boy and out of him make anything you like if you can get him under good self-discipline. All roads are open to the man who is strong and fit. Uncle Sam took "our boys"—those slab-sided, stooped, hollow-chested youths—and made of them vigorous, well-developed, well-set-up and courageous men. Take the right way! Train yourself and your children to take proper exercise, drink plenty of water and keep the system clean. Your doctor will tell you that anything from a common cold or headache to the most serious illness may result from the absorption of poisons in the intestines.

The first principle is to keep the system clean. Occasionally see that the boy or girl, as well as yourself, has an internal bath. It may be with castor oil or a tiny pill of May-apple, aloin and jalap, which is sold by druggists as Dr. Pierce's Pleasant Pellets.

If a cold starts with a cough and it persists, then some local treatment for this condition should be taken. A well-known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs, without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

The recent elections in Ontario and in the Cochrane constituency of Alberta have shown that the farmers are determined to have more to say in provincial government than formerly, and the experiment of a farmers' government in Ontario will be watched with great interest all over Canada. It has been an important fact that the men who were as vitally affected as the farmers, have been too long blinded by party feeling and political party leadership to take an independent stand, and if others dared, as this paper has done in the past, to take such a stand, they were almost damned for it, but the farmers at last realize that the old line political party leaders used them to gain their own ends.

BERGEN NEWS

Thos. Michelson and family were surprised by the young people of Bergen last Thursday evening and were presented with a sum of money with which to have their deceased daughter Lucile's picture enlarged. There were quite a few present and a pleasant evening was spent.

Lewis Jennings returned to Bergen last Saturday. We hope he makes his permanent residence here.

Capt. R. L. Calder of the Royal Engineers, a former teacher of our school, and Lieut. Thomas Dickie of the Royal Dublin Fusiliers, were visitors at C. O. Johansson's Saturday and went west in quest of deer. We wish them good luck.

All the Bergen ninners have taken to the foothills and are busy tracking, but as the deer are a bit scarce, we hope their patience will not fail them.

The Dancers Society met at Mrs. C. O. Johansson's last Saturday.

The Ladies' Aid met at Mrs. A. L. Olson's last Thursday. We understand they intend having a sale in the near future.

Mr. D. Brown has now moved onto his new ranch on Fallen Timber Creek.

Nicholson & Sinclair have also moved to their new place northwest of Bergen.

The Highland Lbr. Co. are going to commence operations shortly.

N. C. Hays drove his cattle back to his farm at Airdrie. Next winter he hopes to feed about 500 head out here.

Endred Mjølness has returned to Bergen. We think there must be some attraction in this neighborhood.

Peace and Prosperity—via the Victory Loan.

Let us hope that now the farmers are getting control of our political affairs that they will bring to their job a broad outlook and unselfish viewpoint. If they do they will be called blessed. If they don't but try to engender strong class feeling, as some seem willing to do, then there will be nothing but chaos and revolution, because the farmers themselves must admit that it takes all kinds (and classes) to make a country, and unless all pull together the country cannot progress and the farmer will suffer as much as anybody else.

We are entering on a complete new era and one of the signs of this is that more people are dissatisfied with old time conditions, both political and economic, than ever before in the world's history. This dissatisfaction is not local, it is world wide, and the outcome will be world wide. It's no use laying down and throwing up your hands; this change has to be met, and the wider and broader view you take of it and the more you assist by careful thought and unselfish action, the more you will do to bring in this new era right.

We had a quiet chuckle to ourselves last week. We were talking with another gentleman over the outlook for farmers' control of political affairs and the matter of the middleman came up. This was all right, and the gentleman agreed that the middleman was the cause of a great deal of trouble. The joke was, as we saw it afterwards, that this man was a middleman himself, although formerly a rancher, but he did not think of that.

Highland News

Hunting season opened Saturday, Nov. 1 with a fine snow and a crackling of rifles that sounded as the boys were going over the top again, some bringing home deer, while others were not content with anything less than moose.

Capt. R. L. Calder of the Royal Engineers, and Capt. R. C. Dickie of the Royal Dublin Fusiliers, spent the week hunting with Harvey McKnight, after which they returned to Banff, where they are staying for the winter. Capt. Calder went overseas in April, 1915, with the Canadian Engineers, transferring to the Royal Engineers in England.

Several big game hunters are staying at the mill but we have not seen them eating much steak.

Martin Arneson has started trapping again.

Mr. Dave Allen is all smiles these days. Why? His wife has arrived from Scotland!

Grandpa Rhoades is busy these days feeding colts, and he has also started to raise hogs, so he can now be found at home at any time. He is expecting his son and family from the States soon.

More land has been taken at Highland by returned boys. We sure are glad to see the boys who fought get the home-lands.

J. C. Waterstreet has a long trap line out and is making good money. So far we have seen one weasel and three squirrels in his traps.

Education in New World Era

The world upheaval occasioned by the Great War is having its effects not only upon politics and political institutions, finance, trade and commerce, and economies in general, but also upon all social and moral relations. While the great struggle was in progress, and the need for bringing every ounce of power and every item of resource to bear to achieve victory became more and more evident, people began to say that the old world would never again be the same. This, in fact, became a trite saying, and many who made use of it hardly realized just how true it was and how great was the revolution taking place in the world, and which was affecting every phase of individual, community, national and international life.

Remarkable and far-reaching as have been the changes brought about in political life and institutions—and here in Canada we are only now beginning to realize just how great the change has been, and just beginning to get a glimpse of other and perhaps greater changes which seem impending in finance, trade and commerce, in science and invention, the packed change of all has taken place in the sphere of social conditions.

The insistent demands of labor for a new place in the social order; the almost world-wide sweep of the movement against the perpetuation of the legalized liquor traffic; the insistence upon greater attention being paid to the health and physical well-being of the people, more especially of the boys and girls—the need for which was so startlingly exposed by the examinations conducted by the army doctors in connection with the recruiting of the immense armies which modern war called for—these things are even more significant of the new era upon which the world has entered than are those which have to do with what in the past we have been taught to regard as the more material things.

And in the laying of the foundation for, and in the development of, this new social order, the most thoughtful men and women have come to recognize that no one institution will be called upon to play a larger or more important part than the public schools and higher institutions of learning throughout this and all other lands. In every progressive country, today, education is receiving the serious attention of the most public-spirited and far-seeing statesmen and leaders in public life.

In Great Britain it has found expression in the most sweeping educational reforms of the last half century or more, and the appropriation of positively staggering sums of

money, even at a time when the Old Land is faced with a tremendous national debt and taxation has reached heights hitherto undreamed of.

In Canada a general awakening in regard to matters educational is in evidence in almost every Province, and is most noticeable of all in the Provinces of the West and in old Quebec. The change which is taking place in the latter Province is, perhaps, most significant of all, and has in it all the elements that may yet lead to a closer union between Quebec and the other Provinces and help to eliminate those causes of friction which in the past have so greatly retarded our national life.

One of the most promising movements so far as Canada is concerned was the convening of the recent National Conference on Character Education in Relation to Canadian Citizenship, which was held at Winnipeg October 20-22, and which was attended by representative men and women in all walks of life from every Province of the Dominion, and at which inspiring and instructive addresses were delivered, not only by prominent Canadians, but by leaders of thought from the United States and Great Britain.

So important does the writer of this column consider this great National Conference to have been at this stage in Canada's history, that he proposes to devote some space to its deliberations in future articles.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

For Soldier Settlers

School Lands in Manitoba and Saskatchewan Withheld From Sale

Through the intervention of the Soldier Settlement board, school lands in Manitoba and Saskatchewan aggregating 432,000 acres, have been withheld from sale by auction in order to be made available for settlement by returned soldiers. Arrangements have been completed to advertise these lands, 2,700 quarter sections in all, for sale by public auction this fall. The lands are situated in the Winnipeg, Brandon, Ashern and St. Rose de Lac districts in Manitoba, and the Canora, Wadena, Prince Albert and Wawaw districts in Saskatchewan. They were selected because of the fact that in these districts crops this year were good and increased settlement is particularly desirable. The provincial governments concurred in the sale.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Natagan River, Que., writes:—"I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the
heart is affected by the faint and dizzy
spells, the shortness of breath, pal-
pitation, throbbing, irregular beating,
smothering sensations, weak, sinking,
all-gone feeling, choking sensation,
etc.

Many men and women become
run-down and worn out when other-
wise they could be strong and healthy
if they would only pay some attention
to the first sign of heart weakness.

No remedy will do so much to
make the heart regain strength and
vigor, regulate its beat and restore
it to a healthy and normal condition
as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont.,
writes:—"I have used on towards the
second box of Milburn's Heart and
Nerve Pills and find they have done
me good. I had those fainting, dizzy
spells, once in a while, and also weak-
ness and shortness of breath, and
would become so choked up at times
I could hardly sleep without sitting
up in bed. When walking too fast
I would have to stop and try to catch
my breath. I feel a lot better since
I have used your pills and know that
they have helped me wonderfully as
I have improved very much."

Walked 95 Miles in One Day
One of the most remarkable pe-
destrians ever known is probably
Edward Payson Weston, who walked
in one day from Philadelphia to New
York, a distance of ninety-five miles.
He left the City Hall in Philadelphia
at five minutes after midnight, and
reached the City Hall in New York
at 11.35 p.m. A year later he walked
over the same route he had walked
forty years before, beating his own
previous time by many hours, and
going 1,300 miles in 24 days 20 hours.

THE NERVOUS SCHOOL CHILD

**Needs Rich, Red Blood to Regain
Health and Strength**

Many children start school in ex-
cellent health, but after a short time
home work, examinations, hurried
meals and crowded school rooms
cause their blood to become weak
and thin, their nerves over wrought
and their color and spirits lost. It is
a great mistake to let matters drift
when boys and girls show symptoms
of nervousness or weak blood. They
are almost sure to fall victims of St.
Vitus dance, or drift into debility that
leads to other troubles. Regular
meals, out-door exercise and plenty
of sleep are necessary to combat the
nervous wear of school life. But it
is still more important that parents
should pay strict attention to the
school child's blood supply. Keep
his rich and red by giving Dr. Williams
Pink Pills according to direc-
tions and the boy or girl will be sturdy
and fit for school. The value of
Dr. Williams Pink Pills in cases of
this kind is shown by the statement
of Mrs. Pearl G. Harrington, Kings-
ville, Ont., who says:—"I have often
felt that I should write you and let
you know what Dr. Williams Pink
Pills did for me. At the age of thir-
teen I was afflicted with St. Vitus
Dance. The trouble became so se-
vere that I had to be taken from
school. I was given medical treat-
ment but it did not help me, in fact
I was steadily growing worse. Then
a friend advised my mother to give
me Dr. Williams Pink Pills, which
she did, with the happiest results, as
the pills completely cured me and I
was again able to take up my studies
and attend school. Again about three
years ago I was attacked with ner-
vous prostration and once more took
Dr. Williams Pink Pills, and after
using five boxes was fully restored.
I cannot praise these pills too highly
as I believe they will cure any case
of St. Vitus dance, or restore anyone
who is weak, nervous or run down."

You can safely give Dr. Williams
Pink Pills to the most delicate child,
or take them yourself with equally
good results when you need a blood
tonic. These pills are sold by all
dealers in medicine or will be sent
by mail, post paid, at 5 cents a box
or six boxes for \$2.50 by The Dr. Williams
Medicine Co., Brockville, Ont.

"Yes, Yes!"—impatiently. "What
did he say?"

"He merely offered to pay my fun-

Novel Bolshevik Scheme

**Tolstoi's Country House To Be Kept
As A Public Memorial**

The Bolshevik Government has a
somewhat Gilbertian scheme for the
disposal of Tolstoi's country house,
Yasnaya Polyana. The property is
nationalized, and is to be kept up as
a public memorial of its late illus-
trious tenant. As, however, the great-
er part of the house was destroyed
last year by Bolshevik brigands, the
Commissary of Art has assigned 175,
000 roubles to its reconstruction.

The Tolstoi family have been in-
vited, on condition of becoming Gov-

property from the State and occupy
the house!

To Utilize Tidal Power

In view of the shortage of British
coal for export purposes, it is report-
ed that French scientists and indus-

power by harnessing the tides. For
several years French scientific men
have declared that this was no fantas-

Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918.

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

Victory Loans 1919 La Bridges Between War and Peace.

Spectacular and beautiful triumph of Canada depends on success of the loan.

Why is it necessary to have another Victory Loan? Have you heard this question? Or have you asked it?

The Victory Loan of this year stands out as the bridge between war and peace. The war is over, but the loan won't stop. The reconstruction work is coming and we at home must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expense of Reconstruction work being, has been so much of it unpaid. How that work is done, let it not be said that we regretted the debt for bringing them back.

The debt and continued soldiers still in hospitals are expensive that there will care for them and their dependents until they have been returned to health and strength. This kind of service must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and in following up the training and seeing that they obtain remunerative employment.

The outstanding of this amount of reconstruction money calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Industries' Land Settlement Act, enough money is put to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is then given a chance to revitalize himself in civil life, and production is given a boost. At the end of the first year of the loan, \$25,000,000 has been transferred to finance farm and other ventures.

Consider the disabled and dependent of our soldiers. It is as well as the returned soldier who is now in the hospital. The expenditure of Canada's money is an important reason why the Victory Loan should be a national success. The money is needed to finance the return to civilian life of our soldiers, and to give them the credit they need to start a new life. If Canada cannot give these credits other than by the loan, then Canada will not get the best service from its soldiers, and the life of our soldiers and their families will be a struggle.

As an investment Victory bonds are unique. For the \$100 you buy, you get \$100 on the spot, and the interest is paid by the Government. The further you buy, the more you get. The Victory Loan of 1919 ought to be a national success, and all right thinking citizens will be glad to see that it is a success.

CANADA'S FUTURE DEPENDS ON LOAN

Steady Employment and Prosperity Hinges on Victory Loan.

Canada's future prosperity depends to a great extent upon the success of the Victory Loan. No country can exist upon trade within its own boundaries. Canada counts on the trade with Great Britain and other allied countries to keep the food of good times in the country.

The surplus products of the farm and the factory and their way across the seas. The revenue of the farmer and the manufacturer is dependent on this trade relationship being maintained. The shipment of many goods depends on the orders that come to the firm. The pay envelope only comes with steady employment. Great Britain and overseas countries are still anxious of continuing their relations, and, overwhelmed with war expenses, they must be given credit for the time being. The farmer and the manufacturer must be paid for their products and manufactured articles in cash. Therefore, Canada must finance the proposition to keep the life of commerce moving this way. But in order to have the money on hand to do this great thing, Canada must borrow from her people.

The Victory Loan offers bonds to subscribers paying 2 1/2 per cent. interest. The guarantee behind the loan is the national wealth of Canada. It is there as a surety for the investment. Victory bonds are as

secure as collateral at any bank, and can easily be turned into money at a moment's notice. It is then to the interest of every Canadian to subscribe for all the Victory Bonds he can, for it is probable, it is patriotic, and it is necessary for the continued prosperity of the country.

CANADA NEEDS MONEY

War Expenditures Still to be Met from Proceeds of Victory Loan.

The war is over and won; but Canada's war expenditures for war will not be complete until well on into 1920. The \$450,000,000 raised last year has all been spent. \$450,000,000 more has been largely devoted to the war effort, maintaining them, bringing them home, providing the necessary medical services, training them, and of the balance of the loan was used to cross Britain to enable her to buy our surplus products. And money is still necessary — for the cost of providing markets for our surplus products, for the needs of reconstruction. Any that is why another Victory Loan is necessary. Canada will never win, and needs it badly.

A Good Investment.

Speculation is one thing. Investment is another. The majority of citizens want an investment, not a speculation. And they want a safe investment. Victory bonds fit that requirement as does no other investment. Because behind every bond there is the national wealth of Canada — a wealth so great that it suggests the imagination.

Credits Must Be Established for Sale of Surplus Products.

Success of Victory Loan 1919 Will Insure Steady Markets for Business.

It takes some six months of wheat to feed the average person in Canada annually. Roughly, therefore, the wheat nation people here consume about 600,000 bushels each year. That even in a good year the crop is some five times that amount, and the surplus must be sold if the farmers are to get a return for their time and labor. But the sale of the crop must be financed. Great Britain, which provides our greatest market, has not the ready cash, and so Canadian must make means of raising the money. Hence the Victory Loan 1919. In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of our surplus grain, the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance of seeing it a failure?

Lend your money that your dollars may be always sold, as well follow the success of the Victory Loan.

Victory bonds are the fodder that keeps the machinery of Canada's essential world running at full speed. If you appreciate a good investment, you will buy a Victory Bond.

You deserve one but you cannot afford a Victory Bond.

Canadian Bank Clearings.

That Canada is well able to support the Victory Loan is clearly shown by the Canadian bank clearings for the current year. They indicate that the year's total will exceed \$15,000,000,000 compared with \$13,776,000,000 in 1918. And the year's total clearings should be three times those of 1909.

Must Subscribe More

Dividing the people of Canada into three classes—the comparatively poor, the moderately wealthy, and the very wealthy—it would seem that if contributions to the Victory Loan constitute service to the nation, the moderately wealthy class is hardly doing its share. Of the money subscribed to the Victory Loan 1918, 150 hundred and seventy-one million dollars were in bonds of \$5,000 and under, ninety-four millions in bonds of between \$5,000 and \$25,000, and three hundred and one millions in bonds of \$25,000 and over.

TO CARE FOR WOUNDED

Money from Victory Loan Will Be Used to Re-establish Soldiers.

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberculosis. Up to August last 3,929 soldiers suffering from this disease had been returned to Canada. These were placed in sanatoriums under the direction of the Department of Soldiers' Civil Re-establishment, and they are one of the departments of that branch that must be maintained, and come under the head of capital war outlay.

All of these men and some 20,000 others, disabled or ill, will be looked after with money raised through the Victory Loan 1919. It is the sacred duty of Canadians that the money is forthcoming.

A. R. KENDRICK

MANAGER

Drury is Chosen Premier of Ontario

Toronto.—E. C. Drury is to be the next premier of Ontario, succeeding Sir William Hearst. Mr. Drury was the unanimous choice of the Farmers of Ontario and Labor representatives in the new legislature, at a joint conference at the U.F.O. headquarters.

It is understood that the meeting was very harmonious and that there was an indication of the two groups pulling well together in the house, though both the U.F.O. and Labor will retain their group feature to a considerable extent.

Premier-elect Drury said that the new government was practically completed, that all the portfolios had been allocated, and that the government would be ready on short notice to take over the reins from Sir William Hearst and his ministers.

The policy of the United Farmers so far as it has been definitely agreed upon is outlined in an address given by Mr. Drury after his selection. In this he stated that one of the first acts of the new government would be to carry out the mandate of the people of the province on prohibition, as declared in the recent referendum vote, and Mr. Drury expressed himself as in complete sympathy with this mandate. He pointed out that the U.F.O. had waged war on special privileges, and this policy would be continued, he said:

He intimated that the new government would not stand for any class legislation.

In his address, Mr. Drury said he realized that the bed upon which he had been placed is likely to have more thorns than feathers in it. "I do not, however, entertain any fears regarding this situation," he said. "It is true we may be lacking in experience, but the situation is not one which calls for the fine arts of the politician."

The new leader added: "It is too early to speak of our legislative program. We have not yet been called upon to form a government, and it would be unwise to anticipate. We can, however, lay down certain broad principles which must and should govern us in the matter. Our war in the past has been waged on special privilege.

"We are not at this time going to abandon the principle of justice and fair play which have actuated us in the past.

"If we are called to power we must stand for no class legislation of whatever kind. Our legislative program must be framed for the benefit of every just and honest and legitimate interest in the province. If in the carrying out of such a program the unjust and dishonest interests get in the way, so much the worse for the latter."

War on Illiteracy

An Americanization bill to wipe out illiteracy in the United States, was reported on favorably by the senate labor committee. The bill would appropriate \$12,500,000 a year.

The Sugar Shortage

Licenses to Export Sugar Cancelled By Canadian Trade Commission

Ottawa.—No export licenses of sugar from Canada are being issued, and old contracts which called for the shipment of sugar to the United States have been cancelled by the Canadian trade commission, it was learned. Export of sugar along the border points, which has been permitted to some extent in the past, has also been stopped, despite the many hundreds of requests for sugar being received by the trade commission.

At the office of the commission it was stated that if care is exercised by the consumers, there is sufficient sugar in Canada for domestic use, providing there are no strikes or transportation tie-ups.

Canada is one of the best situated countries in the world in this respect, it was stated.

Held Prisoner by Ice

Aviators Will Try to Rescue Man Frozen In

Winnipeg.—To rescue a man frozen in in the north country without supplies, Capt. Cuffe, late of the R.A.F., one of the local aviators, and J. D. Perrin have left by airplane.

J. B. Tirrell, a well-known geologist and consulting engineer for a mining company, who has been surveying holdings in the Rice Lake district, as a result of the early freeze up has been held prisoner in the north land.

The lake was so frozen round the edges that several attempts made to get boats in proved unsuccessful.

Hurrah! How's This

Cincinnati authority says corn dries up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store, but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky, but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

A Unique Move

Commercial Travellers to Use British Warships

London.—British commercial travellers and the representatives of business houses are to be permitted passage aboard every British warship leaving the country for abroad.

This, according to Sir Hamar Greenwood, under-secretary for home affairs, who made the announcement before the association of British chambers of commerce, is "a move unique in the history of the empire."

Proportional Representation

Winnipeg.—A bill providing for proportional representation for Winnipeg will be introduced in the next session of the provincial legislature, it is stated. Winnipeg would be the only district affected, as the city constituencies are the only ones for which there are more than one member.

Italy Appeals to United States

London.—Diplomats here assert that another strong appeal has been addressed to the United States by Signor Tittoni, Italian foreign minister, regarding the Fiume situation. It is added that the British and French governments are using their good offices to ease the rather critical situation.

Turkish Question For New Conference

Entente Representatives Are Persuaded U.S. Will Not Voluntarily Accept Mandate

Paris.—The entente representatives in the peace conference apparently are persuaded that the United States will not voluntarily accept any mandate in the Near East, and it now seems assured that the Turkish question will not be touched by the present peace conference, but will probably be taken up by another conference to be held within a few months.

There is much speculation as to where the conference for the division of Turkey is to be held. It will probably not be in Paris. The suggestion of Geneva has not met with great favor, as it is not regarded as a good place for a winter conference, and it is believed that Turkey must be disposed of before spring.

To Relieve Distress

Preparations Being Made in U.S. to Cope With Strike Situation

Washington.—The government, confronted with the refusal of the miners' organization to call off the strike of a half million soft coal workers, has moved swiftly to protect the people from great distress.

First of many steps to deal with a situation admittedly critical probably will be these:

"Ample police or other protection for miners willing to remain on the job as urged by President Wilson.

"Revival of the fuel administration, armed with full war-time powers to prevent hoarding and profiteering.

"Allocation and distribution of coal to homes, railroads and industries.

"Efforts to bring the strike to a speedy end through mediation.

"The government, however, will make no effort to bring about indictment of officers of the United Mine Workers of America, who called the strike, on charges of conspiracy to reduce production of a necessary product.

Sugar Rations to Candy-Makers

Washington.—Rationing of sugar to manufacturers of candy, soft drinks and the like is soon to be suggested by the sugar equalization board, a house war investigating committee was told by Herbert Hoover, former federal food administrator. This step by the board, Mr. Hoover said, resulted from the fact that "raw sugar has risen beyond the point where it can be bought advantageously for the housewife."

Germany May Not Hand Over Ships

Berlin.—The Deutsche Allgemeine Zeitung says semi-officially that the reply of the German government to the note from the supreme council at Paris, demanding the surrender of German ships sold to Holland during the war, will probably be in the negative. The note will declare that the government is unable to endorse the legal arguments of the entente that the sale of these ships, which are now in German waters, was invalid.

Canada Wants Place On Governing Body

Alleged Evasion Of Immigration Law

Claim that Hutterites Get Into Canada By Automobiles

Winnipeg.—Finding it a difficult job getting into Manitoba from the United States by train, Hutterites, it is alleged, are trying to outwit the immigration authorities by entering in automobiles. Reports to this effect were submitted at a meeting of the central branch of the Great War Veterans' association, with a result that a resolution was unanimously passed calling the attention of the federal government to the matter and urging it to take immediate steps to see that the regulations prohibiting the entry of Hutterites into Manitoba were not evaded in what was described as this astute way.

To Solve Fiume Question

France and Britain Are Again Trying to Bring About Settlement of Problem

Paris.—Efforts of France and England are again being brought into play to bring about a solution of the Italian-American difficulties over the settlement of the Fiume problem, according to the Liberte.

The newspaper reports that the American opposition to the modified Italian proposals is unchanged and that the response of Secretary of State Lansing is in the negative.

Premier Clemenceau received Foreign Minister Tittoni.

To Withdraw British Troops

London.—Andrew Bonar Law, government leader in the House of Commons, announced that the government was arranging with France and Prince Feisal, son of the King of the Hedjaz, for the immediate withdrawal of the British troops from Syria and the assumption of the duties of occupation by the French and Arabs, pending the conclusion of the peace treaty.

Heavy Potato Loss in Manitoba

Winnipeg.—Manitoba has sustained a loss of about 2,800,000 bushels of potatoes, frozen in the ground, which at market prices today, \$1.25 per bushel, means a loss of \$3,500,000 and represents a loss of from 30 to 40 per cent. of the entire crop. Dealers say there will be a serious shortage in the province this winter.

Argentina to Hand Over Hun Ships

Buenos Ayres.—The six German merchant ships which took refuge in Argentine ports during the war will be delivered to the allies in good condition. This decision is the result of diplomatic negotiations extending over several months to determine the fate of the interned steamers.

Melons Grown in the West

George Merrick, head of the Merrick-Anderson company, who for years before the war and ever since has been a most earnest advocate of greater production, is very proud of the fine muskmelons which he grew this year at Old England, near Selkirk. He believes that in years to come a very large proportion of the market gardening for the city of Winnipeg will be done in the light, warm, sandy soil in the region near the town of Selkirk, where conditions are very favorable. The picture shows samples of the melon crop of this season, said to be equal to those of Montreal.

Washington.—Canada has filed a formal protest against the proposed composition of the governing body of the international labor office to be established under the League of Nations. The point at issue is regarded by the Canadian delegation here as of the greatest moment. It involves the right of Canada, by reason of her industrial importance, to name one of the members of the governing body rather than to take her chance of election as one of the nations of lesser importance, from the industrial point of view.

The international labor office (which will be controlled by the governing body), forms part of the permanent organization created to further application of the labor principles embodied in the peace treaty.

Its governing body is to consist of 24 members. Twelve will represent the governments, six will be selected by the employers' delegates to the international labor conference, six by workers' delegates to the conference. Of the twelve government representatives, eight will be nominated by the members of the conference which are of chief industrial importance.

The remaining four will be nominated by the other government delegates to the congress. The governing body will consist of 24 members, comprising which eight nations are of industrial importance and therefore empowered each to name a representative on the governing body.

The organizing body of the labor conference has reported in favor of the following:

United States, Great Britain, France, Italy, Belgium, Japan, Switzerland and Spain.

If German delegates are admitted to the conference, Germany, by reason of her industrial importance, will be entitled to a seat on the governing body, and Spain being at the end of the list will cease to be numbered among the eight.

Now the position taken by Canada is that she should rank as one of the eight nations of "chief industrial importance." And to that end has deposited a protest. The Dominion government holds that she is entitled to be so regarded on the grounds:

- (1) Of population.
- (2) Of relative industrial importance.

When the council of the League of Nations convenes, and this is expected shortly, Canada's protest will be one of the first questions for education.

Navy Must Retain Strength

Beatty Says Nation Would Fall to the Ground Unless Sea Force Is Maintained

London.—Earl Beatty, the new first sea lord, speaking here, declared that while public economy was essential, our vast lines of communication were as important as before the war, and the navy was our insurance for maintaining them. The League of Nations was a pious hope for relieving us of some of that insurance, which he hoped might be fulfilled, but the navy made us into a strong man armed, and without it the Empire would fall to the ground.

WHY YOU SHOULD BUILD ONLY FROM PLANS

Every building you put up this year and from now on should figure largely in your future.

Whether it be a new house or only a machine shed it will help you make money by saving it.

Just how much it will help depends on how well it fits into your needs now and later.

If you go ahead and build without any plan or any reference to future years and needs you are very likely to find that in a short time the building doesn't fit and you have to re-model, enlarge or build new.

WHATEVER YOU DECIDE TO BUILD GET A PLAN FOR IT, WE MAKE THEM FREE.

And just because it is a FREE service don't think that it isn't worth anything.

These plans are made to fit your ideas and your needs. They are made so that your buildings will be strong and durable and cost the least that they can be made to cost and be built right.

Just as soon as you decide to go ahead with any building see us at once for plans as well as material.

AROUND THE TOWN

CLOSING SALE OF MILLINERY.—Everything in the millinery line at Mrs. Peterson's will be sold at half price during the month of November. Those wishing anything in the millinery line should avail themselves of this opportunity.

Mr. and Mrs. Andrew Gertz and two children left on Saturday for an extended holiday in the U. S. and Ontario. Their first stop will be at Portland, Ore. A large number of their friends were at the depot to wish them a good time and pleasant journey.

There is only a day or two left in which to subscribe to the Victory Loan. Didsbury is away below its quota of \$50,000. If you have the money to invest there's no better or safer way. Get busy, subscribe at once before it's too late to benefit yourself.

Of the many attractions that will tour Canada this season the genuine musical comedy sensation, "I Love a Lassie," in which the mirth-provoking Scot, Billy Oswald, will be featured, is sure to rank among the best. "I Love a Lassie" will be seen at the new theatre on Saturday night, November 22nd.

The High School Literary Society will hold their next meeting on Friday, November 14th at 8 o'clock. The chief attraction will be a debate between two pupils each from Grades X and XI on the subject, resolved: "That motion pictures are of value in education." Other numbers, musical or otherwise, will also be given. Everyone is welcome.

Rest With Nature

The closer you follow the rules of Nature the more you will accomplish, and the longer you will live, even Nature takes her rest during the Winter months—why not you? Spend this winter on the Pacific Coast, where you can enjoy Summer pastimes, Ride, Motor, Golf, in the big outdoors.

The Canadian Pacific operates three through trains daily to Vancouver including the fast all sleeping car train, "Trans-Canada Limited." See the magnificent mountains in their Winter garb; the open seas and green fields—all this and more await you at the Pacific Coast.

Call or write for full particulars to any agent of the Canadian Pacific Railway. 2-45
